

Conclusion

Claims 2-37 have been canceled. Claim 1 is now pending.

Applicant amended FIG. 13 with respect to the "microprocessor" labeled as "508" to be renumbered since the numbering is a duplicate of the "Probe Microphone" which was already labeled as "508." Applicant arbitrarily selected the number "509" to make the correction to FIG. 13. The specification is also corrected as set forth herein to be "microprocessor 509." Thus, the changes are supported by the use of the title "microprocessor 509" on FIG. 13 and in the specification.

The Applicant respectfully requests that the preliminary amendment described herein be entered into the record prior to the examination and consideration of the above-identified application.

Respectfully Submitted,

GORDON J. BYE ET AL.
